

RE-DOMICILATION OF FOREIGN NON-EU COMPANIES TO CYPRUS

Cyprus has established itself as one of the leading jurisdictions for corporate re-domiciliation, offering a modern and flexible legal framework that enables eligible foreign companies to transfer their registered office to Cyprus while preserving their corporate existence. As a Member State of the European Union, Cyprus provides businesses with direct access to the EU Single Market, a sophisticated common law-based legal system, an attractive and internationally recognised tax regime, and an extensive network of double taxation treaties.

For companies incorporated outside the European Union, re-domiciliation to Cyprus may represent a strategic opportunity to establish an EU presence without the need to liquidate the existing entity or undertake a complex corporate restructuring. Subject to the laws of both the originating jurisdiction and Cyprus, the process allows businesses to maintain contractual relationships, assets, liabilities, and corporate continuity while benefiting from the legal and commercial advantages associated with an EU domicile.

This fact sheet examines the legal framework governing the inward re-domiciliation of non-EU companies to Cyprus.

Cyprus Company Law, Cap 113, provides the following:

- Foreign Non-EU companies can be re-domiciled in Cyprus and transfer its business to Cyprus without being dissolved; and
